If you aren't happy with your colors you'll need a layer to adjust them. Textures like hair, fur, and grass are the most beautiful and convincing on an oil-heavy layer. The artist uses a range of grays to provide value and adds other colors to create real-looking skin. She also uses these colors to paint from a reference photo that you can access online. Oil Painting: Tips, Tricks, Techniques. You will need to have a grayscale painting to start with, so you'll need some knowledge of how to paint, shade, and model. But even as a digital painter I've been using this technique to add that missing element to a good grayscale piece.
