

Everyday Content-Area Writing: Write-to-Learn Strategies for Grades 3-5 | 2010 | Kathleen Kopp | Maupin House Publishing, Inc., 2010 | 9781934338667 | 176 pages

Students learn powerful strategies for each step in the writing process: prewriting, writing, revising, editing, and publishing. A rigorous research section helps students find and evaluate sources, avoid plagiarism, write reports, and create papers using MLA or APA documentation. Cross-curricular chapters teach note taking, summarizing, and writing in science, social studies, math, and the workplace. It also correlates every page of Write for College to the Common Core State Standards. Download a program overview and learn how to get started. Write for College (Soft Cover). Write on Track is a writing handbook that helps students in grade 3 become better writers, readers, test takers, and learners. You'll find guidelines, models, checklists, tips, and much more. Learning to write (ages 3-5). Young children can sometimes recognise and read letters but still find it difficult to write them. There are many ways you can help your child to develop the skills needed for writing. Share Print. Fine motor skills. At the ages of 3 and 4, children are starting to use their hands and fingers to draw in a more detailed way and may be starting to copy letter shapes. This needs coordination and control, which most young children are still developing. These skills are called fine motor skills. Simple patterns. Depending what your first language is, letter shapes may Kopp, a teacher and author of the Learning Through Writing series and books on content-area learning and technology, presents a way for teachers in grades three through five to use writing in daily activities and as a means to learn content areas. She explains how to teach content-area vocabulary, prepare lesson plans that target writing skills, use assessments to direct instruction, and integrate technology into the writing process. -Book News Inc.
