OCCASIONAL PAPER 201. The context of REDD+ in Guyana. Drivers, agents and institutions. However, slow progress in addressing land titling issues and recognition of indigenous tenure rights, weak governance undermined by corruption, rent-seeking behavior, and unclear tenure are key government challenges that impede effective implementation of both REDD+ and other forestry policies in Guyana. In publication since 1981. Occasional Papers on Religion in Eastern Europe is a multidisciplinary journal devoted to exploring religious issues, including interreligious dialogue, religious life and behavior, and religious institutions, in Eastern Europe (including the former Soviet Union), and published online by George Fox University on behalf of OPREE's Editorial Board. Current Issue: Volume 40, Issue 10 (2020). Editorial. PDF. Frontmatter (Volume 40, Issue 10) Paul B. Mojzes. Articles, Explorations, and Reports. PDF. All Victims Matter. Book Reviews. PDF.
