Yale Studies in Political Science, Volume 16, . Yale University Press, 1966. 1966

In her new book, Yale political scientist Elizabeth Nugent examines why the outcomes in these two countries have been so vastly different. Yale political scientist Elizabeth Nugent discusses "After Repression," her new book on the outcome of 2011's Arab Spring in Tunisia and Egypt. news.yale.edu. Post-Arab Spring, polarization shaped different paths for Tunisia and Egypt. In a study of medical registry records of nearly 400,000 parent-child pairs from Denmark, a Yale School of Public Health study found that parents who themselves. In a study of medical registry records of nearly 400,000 parent-child pairs from Denmark, a Yale School of Public Health study found that parents who themselves. Yale University. January 11 at 4:00 AM ·. Volume 16 - Issue 3 - September 2015. Page/Article number: low to high Page/Article number: high to low Title Type Online publication date. Contents. Research Article. In the first section, it begins with highlighting the overall relevance of this case study in the context of the analysis of emotions and passions in international politics. In the second section, it shows that both for Germany and Japan a sense of psychological insecurity regarding their international status and their urge to catch up and compensate, put them on a collision course with the great powers of the period. In the third part, the article explains how, in time, this contributed to the fact that Germany and Japan embraced negative and exclusionary political emotions and passions that Political Science books at E-Books Directory: files with free access on the Internet.
