

50 Earth Ideas You Really Need to Know. 9781623651961. Quercus, 2013. Martin Redfern. 2013. 208 pages

This book offers an electrifying trip through the wonders - and terrors - awaiting us over the next hundred years. Richard Watson is an internationally renowned author, speaker, futurist and scenario planner who is best known for his book *Future Files* and for his graphic representations of future trends. Richard is the founder of www.nowandnext.com a website that publishes the quarterly 'What's Next' report, a monthly newsletter and a daily blog. From delusion to desolation - *50 Economic Ideas You Really Need To Know* by Edmund Conway. To salvage the wrecked public finances without cutting spending, each family would pay £930 a year more in tax between now and 2018. "Commendably comprehensive and concise book setting out 50 of the most important ideas in economics" - David Smith, *Sunday Times*. David Smith's *EconomicsUK* - all the economics you'll ever need economicsuk.com. David Smith's *EconomicsUK.com*: 50 economic ideas. David Smith's *EconomicsUK* - all the economics you'll ever need David Smith's *EconomicsUK* - all the economics you'll ever need See all. See more. This latest book in the bestselling '50 Ideas' series is a wonderfully accessible overview of the only place we know of in the universe that is capable of sustaining life. Expert popular science writer Martin Redfern covers all the natural processes of the Earth: climate, ocean currents, air currents, the elements, plate tectonics, fossils, the evolution of life, volcanology, sea levels and the ultimate fate of the Earth.
