Vine's Dictionary module from Douglas Hamp. Preface to Vine's Expository Dictionary of New Testament Words. To ascertain the exact meaning of the words and phraseology of the originals of the Holy Scriptures is of great importance, particularly those which have a variety of meanings in English. The research work of the past fifty years, with the discovery of a large number of inscriptions and documents, and especially of the non-literary writings in the tombs and dust heaps of Egypt, has yielded much light upon the use and meaning of the language of the originals. The method of the Dictionary provides an exhaustive presentation of synonymous words. Where a word in the original has a variety of English renderings, a list is given of these at the close of the note on each word.
