More Anti-Inflammation Diet Tips and Recipes: Protect Yourself from Heart Disease, Arthritis, Diabetes, Allergies, Fatigue and Pain (Paperback)

By Jessica K. Black

Hunter House Inc., U.S., United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Recently, the connection between inflammation and heart disease, arthritis, and other chronic diseases has become established. Many food allergies inefficiently and overabundantly stimulate the immune system to react and cause inflammatory responses. Any inflammation in the body interferes with and slows down metabolism and the healing response. Chronic inflammation within our bodies erodes our wellness and paves the path for ill health. Today's research clearly shows that our health is very dependent on the food we eat. Poor nutrition choices and hidden food allergies can cause inflammation in the body, which can lead to serious, chronic diseases like heart disease, cancer and stroke, the three leading causes of death in the United States. Inflammation is also linked to arthritis, diabetes, asthma, and allergies. Dr. Black wrote The Anti-Inflammation Diet Recipe Book in 2006, the first book to give the complete anti-inflammation program with specifics on how to eat and cook in order to prevent and counter inflammation, because many of her patients wanted to follow a naturopathic, anti-inflammatory diet but couldn't find any recipes to use. The anti-inflammatory...

WebMD explains remedies that include herbs, dietary supplements, acupuncture, biofeedback, and more.â€ Weight Control: Are Herbs Safe? Since being overweight and having diabetes are linked, many people with diabetes turn to natural alternative therapies that claim to help with weight loss, including

Having a chronic disease like arthritis affects many aspects of daily living and can cause stress. Learn coping strategies dealing with stress. Managing Pain. One of the most common questions people with arthritis ask is, "Is there a special arthritis diet?" While there's no miracle diet for arthritis, fortunately, many foods can help fight inflammation and improve joint symptoms. For starters, a diet rich in fruits, vegetables, fish, nuts and beans but low processed foods and saturated fat, is not only great for overall health, but can also help manage disease activity. Help millions of people live with less pain and fund groundbreaking research to discover a cure for this devastating disease. Please, make your urgently-needed donation to the Arthritis Foundation now! Become a Member. This type of inflammation can drive illnesses like diabetes, heart disease, fatty liver disease, and cancer (1, 2, 3, 4). Chronic inflammation can also happen when people are obese or under stress (5, 6). One diet considered anti-inflammatory is the Mediterranean diet, which has been shown to reduce inflammatory markers, such as CRP and IL-6 (29, 30, 31). A low-carb diet also reduces inflammation, particularly for people who are obese or have metabolic syndrome (32, 33, 34). In addition, vegetarian diets are linked to reduced inflammation (35).

Summary. Improvement of symptoms of arthritis, inflammatory bowel syndrome, lupus, and other autoimmune disorders.
