Paperback in Portuguese - 1 edition. 8571395225 9788571395220. aaaa. Not in Library. 2. Testamento intelectual. Milton Santos thought these major cities in the Third World could not be studied as whole systems and his observations led to the elaboration of the theory of the two circuits. The notion, first introduced in the last chapter of Santos's book Les Villes du Tiers-Monde, was further developed in one of his most accomplished works on the theme: L'Espace Partagé: Les Deux Circuits de l'Economie Urbaine des Pays Sous-Développés. The author identifies the upper circuit as the direct result of a modernization process that drastically changes modes of production and communication, as well as lifestyle Milton Santos has 41 books on Goodreads with 1183 ratings. Milton Santos's most popular book is Por uma outra globalização: do pensamento único à consciência... Error rating book. Refresh and try again. Rate this book.
