During the recent years, the United States has repeatedly criticized China for its monetary policy. The US is particularly concerned about the understated Chinese RMB exchange rate (Ren Min Bi, or yuan) that stimulates exports from China. The yuan exchange rate changes within the corridor of the People's Bank of China. According to the US Treasury, Beijing should conduct "necessary reforms" before the yuan is included in the basket of reserve currencies of the IMF, Bloomberg said. It all depends on the will of the United States. The yuan is de facto world currency number 2 after the US dollar already. The Chinese currency may become number one in the world quickly. The Federal Reserve System is the central banking system of the United States. It was created in 1913 by the enactment of the Federal Reserve Act, largely as a response to a series of financial panics or bank runs, particularly a severe panic in 1907. Over time, the roles and responsibilities of the Federal Reserve System have expanded and its structure has evolved. URL: [www.federalreserve.gov](http://www.federalreserve.gov) Chairman Ben S.
