Arndt, S., & Tesar, M. (2015). Early childhood assessment in Aotearoa New Zealand: Critical perspectives and fresh openings. This article looks explicitly at power relations involved in pedagogy around childrenâ€™s working theories by focusing on the teacherâ€™s control of what and whose working theories get unpacked and extended. From an analysis of four cases from early childhood education (ECE) settings, it is concluded that teaching strategies are related to possible risks of unpacking and extending childrenâ€™s working theories. This book is very worthwhile for those in the play sector and also for those undertaking dissertations in early years. highlights international studies as well as UK. Read more.
